IN THE HALLS OF CONGRESS

Yesterday's Happenings Under the Great White Dome at the National Capitol.

Senator Tillman addressed the Senate yesterday on the Philippine bill.

Senator Perkins obtained consent yesterday to bring up out of order his bill appropriating \$1,500,000 for the new Custom-house at San Francisco, and it was passed.

The Government counsel in reply to arguments in Admiral Schley's appeal declare that he made most serious blunders and assert that he did not direct the fighting in the battle.

The hearing on Chinese exclusion was continued yesterday before the House Committee on Foreign Affairs.

H. R. Fuller, in behalf of the Brotherhood of Railway Employees, spoke in favor of strict exclusion. He said the objection to the Chinese from the labor standpoint was that they come into competition with American workmen, the Chinese having such habits of cheap living that they work for wages which respectable American workmen could not afford to take.

Will Enlarge the Plant

Capt. P. Curtz, who returned from the east this week, will resume work immediately at his Alpine county mines, and as soon as practicable an electric plant will be installed. Improvements of an extensive character are to be inaugurated and the properties are to be operated on a mammoth scale. There is plenty of capital behind the enterprise and Captain Curtz can be depended upon to handle it to the best advantage possible. A new forty-stamp mill is also to be erected in the spring, making sixty stamps in all.

Printers' Supplies at Porteous.

Gas Works to be Moved

The gas works to be moved at once. The plant will be located on East Fourth street and the capacity will be several times multiplied. Crude oil will be used exclusively in making gas. Several new retorts will be built. The moving of the gas works from the center of the town will be appreciated by the persons who live in its present locality.

Mr. Hawke's

Geo. Hawkes is a guest at the Palace hotel. Mr. Hawkes was once a frequent visitor to Reno in his capacity as traveling agent for the Denver & Rio Grande railway. He is now connected with the Philo Commission company of Omaha.

Boring for Water

A considerable flow of water was struck at a depth of thirty feet in the well at the ice factory, but in order to secure absolutely pure water for ice making the company has put a boring machine to work and will pierce the underflow. The well is now down about fifty feet.

Larger Quarters

O. Benschuetz is building a bottling and cold storage works on West Third street. The building will be 60x80 feet and will be equipped with modern machinery.

The arrival of Frank Golden, "of Tonopah," at the Palace hotel in San Francisco, appears in the papers of that town.

Plan to Inaugurate Wool Sales in Reno.

Senator Flanigan is arranging to institute wool sales in this city similar to those held in other large wool centers.

He is already promised 600,000 pounds of wool for storage from the spring clip. This amount will probably be doubled several times over. Notices will be sent out and on a fixed day the wool will be sold to the highest bidder.

These sales will take place as often thereafter as a quarter of a million pounds of wool has accumulated. This plan will be highly advantageous to the wool-growers and benefit the town, bringing many people here to the sales.

Last year's wall papers greatly reduced. New wall papers not high—Porteous Decorative Co.

Headquarters of a Hide Buying Firm.

Blesinger & Co., the San Francisco hide dealers, have leased a large floor space in the Flanigan warehouse and are carrying on business on an extensive scale. The local department is being managed by Julius Schwarzschild. The arrangements are very convenient for shipping hides and pelts in carload lots. In front of the warehouse is a three rail track connected with the Southern Pacific, the Virginia & Truckee and the Nevada-California-Oregon railroads. The hides and pelts are immediately weighed, sorted and the cash paid for them.

The volume of business carried on by this firm would surprise anyone not familiar with the extent of the stock industry in this State. Mr. Schwarzschild is a hustler and is managing this business in a manner satisfactorily not only to his firm but to all who have business dealings with him.

It Pays to Advertise

S. M. Sample inserted a fifty cent ad in the Journal yesterday morning under the head of "Help Wanted". The Journal was not distributed until daylight, but before 8 o'clock there were several applications for the position and the place filled. This proves that the Journal is a pretty fair advertising medium, considering the scarcity in the labor market at present.

Not a Public Charge

It developed yesterday that William Bowen, the ex-prison guard, who aided in preventing a wholesale jail delivery, is not a charge upon the people of Ormsby county. While he is an inmate of the county hospital, the Masonic fraternity will pay the expenses of his care.

The National Game

There will be a hotly contested game of baseball on the University Athletic grounds this afternoon at 2:30. The contesting teams will be made up of the members of the two student fraternities. An admission of 10 cents will be asked to defray expenses.

A Rural Service

Before long electric lights will be gleaming over the Truckee meadows. This morning workmen will begin constructing a pole line from the substation to Wedekind city and thence to Glendale.

The Wiley B. Allen Co.'s representative, Mr. Gallagher, has a number of fine pianos that must be sold. Prices are right.

HAPPENINGS OF A DAY

Yesterday's Occurrences in This City and Locality in Brief.

New Mining Corporation

Articles of incorporation of the Concordia Group Gold Mining Company were filed with the county clerk yesterday. The company's works are located in Plumas county, Cal. The capitalization is \$1,000,000. Following are the members of the board of trustees:

Major G. W. Ingalls, J. S. Correco, T. F. Dunaway, F. B. Julien, John Sunderland and A. A. Hibbard, all of Reno, and C. G. Ebert of Redding, Cal.

Iron Works Busy

Notwithstanding that this is the dull season of the year at the Union Iron Works, a considerable force is employed at present. A large order for brass castings is being gotten out for the N-C-O shops. A number of castings are being made for the mines in the immediate vicinity of town and many orders are being received from the lumber mills in the Sierras.

The Birds Had Flown

The police were out again on the round-up yesterday, looking for that class of criminals euphemistically known as "well dressed vagrants." Their birds had flown and the warrants were returned unserved. If any of the persons named in these documents return to Reno they will be arrested immediately.

Left for Africa

H. P. Durrant and family passed through Reno last night on their way to South Africa, where Mr. Durrant has accepted a position with an English mining company. For some months past Mr. Durrant has been assayer for the Butters company that is operating in Six-Mile Canyon.

A Welcome Bombardment

Despite the cold weather excavation of a number of cellars proceeds untenuated. Owing to the ground being frozen so hard, the use of dynamite is made necessary. Blasts are heard frequently. This is not a cannonade that is destroying property but creating it.

Freight Cars Derailed

A freight wreck occurred yesterday noon at the gravel pits near Salvia station, six miles west of Wadsworth. The wrecking train was summoned from Truckee. Only a few cars were off and traffic was resumed in about four hours.

Died at Pyramid

A three months old daughter of Mr. and Mrs. White of Pyramid Lake died early yesterday morning. The body was brought to Reno. At 10 o'clock this morning the funeral will take place from McPhail's undertaking parlors.

Stopped by Water

The Wheeler mine has suspended operations on account of the flow of water being too heavy to be controlled by the bucket. Work will be resumed as soon as a pump is installed.

Contractors Employ Hundreds of Men

Sheriff McInnis returned last night from a visit to Wadsworth. He reports that town as very lively on account of the railroad work now going on. Several miles of new track have been graded east of Wadsworth. Contractor Stone is working a force of nearly a thousand men. Two of his gangs are made up of Mormons. In one party there are 250 and in the other about 150 workmen. The peculiar thing about this is that all the members of each party are related by near or distant family ties. They are like two communities. The contractor says he has paid off over a hundred men already who have quit their jobs, but he expects every one of the Mormons to be there until the last spadeful of earth is turned.

High School Students Pay Fraternal Call.

The senior class of the Wadsworth high school paid Reno a visit yesterday. They arrived on the morning train and were met at the depot by the senior class of the Reno high school.

Carriages were provided and the visitors were shown the town. They drove over town, inspecting the University and the asylum.

The visit will probably be returned later in the term. This is a pleasant custom. For years the Virginia and Reno high schools have been exchanging courtesies of this sort.

Mathematical Goods at Porteous.

Free Citrus Fruit

Two of the cars wrecked at Salvia yesterday contained California oranges. The fruit was scattered all over the landscape and a gang of Italian laborers didn't do a thing but load up on the aforesaid. Even the members of the wrecking crew were not averse to stowing a few of them under their ribs.

Exchanging Pulpits.

Rev. B. J. Darnelle, of Carson, will officiate at Trinity Episcopal Church, on Sunday next, both morning and evening. He was formerly rector at Elko, Nevada. Rev. Unsworth preaches at Carson the same day.

JOHN M. DENNIS, Editor

SCHLEY'S ADMIRABLE BEARING.

THE court of inquiry may censure Schley, the President of the United States may snub and reprimand his friends, and undertake to deprive him of the honors that are his due and transfer them to the chief of his defamers, but when it comes to that court of last resort, the people, the verdicts of the lower tribunals are reversed and the gallant hero of Santiago comes forth from the contest without a blot or a stain, and with the full glory of a triumphant and popular vindication. His reception at Chicago which was the grandest and most enthusiastic that was ever accorded to any man in public or private life, is only an indication of the unerring sense of justice which prevails throughout the entire country, and the infallibility of the great appellate court in which the case of Admiral Schley has been finally decided.

The Chicago Herald-Record is a Republican paper, but it is never so blinded by partisan prejudice as to mistake the path of justice or cater to political conspirators in its party at the expense of disregard of the demands of decent and legitimate journalism, and this is what it says.

It takes a man with admirable self control or with a positive genius for taciturnity to face such a bombardment as has welcomed Admiral Schley to Chicago without making an ass of himself. That he has stood the ordeal without having to put a tinclack on his lips is the best proof that he possesses a level head. Nothing that he ever did throughout his long and honorable career in the navy so redounds to Admiral Schley's credit as his bearing in the midst of the vociferous eulogies of the admiring landlubbers of Chicago.

The nature of this welcome was well calculated to turn the head of a moderately modest man—and modesty has not been considered Winfield Scott Schley's overshadowing characteristic. From the moment he stepped from the train Saturday forenoon until he pulled the covers up over his weary ears Sunday morning they had rung with the acclaim that greeted him as the commander at Santiago.

Through the streets, at the receptions and amid the valleyed cheers and smoke of the Hamilton Club banquet one popular purpose was made clear. It found expression in the motto accompanying the municipal greeting, "Honor to Whom Honor Is Due." It was blazoned in the single word "Justice" that cropped out everywhere. It found its fitting rhetorical climax in the conclusion of Clark E. Carr's speech, "There is glory enough for All."

And throughout the varied utterances of the day, as Admiral Schley was called upon to acknowledge the warmth of his reception, he spoke no word, expressed no sentiment that was calculated to monopolize to himself an undue share in the spectacular destruction of the maritime power of Spain at Santiago.

We are not of those who are disposed to place great dependence on any man's disclaimers of ambition. The history of the world is full of instances where those protesting "I will never consent, consented." Therefore, when the time comes—if it should ever come—we should not expect that Admiral Schley's emphatic denial of any desire or aspiration for any civil office would embarrass his acceptance of any duty his fellow citizens might insist on thrusting upon him.

There is a sovereign potency in that one word "duty" which has been found sufficient to brush aside the most solemn and sincere assertions of the will and purpose of man.

For the day and the occasion Admiral Schley's declarations were modest, on discretion, and they had the ring of frank sincerity. But who can dam the tide of time and circumstances with a barrier of words?

PRINCE HENRY, of Germany, is coming over here to be present at the launching of the yacht of his brother, the emperor. The daughter of the President is to christen the craft. Prince Henry will be the guest of the nation and special arrangements will be made for his entertainment. All the officers in Germany available for such service want to come with him. There has been a great change since Admiral Dewey sent a message to the German Admiral in Manila bay, inquiring if the United States and Germany were at war.

GOVERNOR CRANE, of Massachusetts, has been in Washington lately and it is rumored that he may take Secretary Long's place in the cabinet. We hope not. Not that he wouldn't fill the position creditably, but we had him put up as the one Republican in the United States who had no hankering for federal position and the shattering of our idol would cause us pain.

A MAN in Virginia (State not city) has taken out a license to marry a grand-daughter of his second wife. If they have children there will be nearly as bad a tangle of relationship as in the case of a Mormon who married a mother, daughter and grand-daughter, and bad children by them all. If the Virginia man dies and leaves property, its division will not be possible by ordinary arithmetical methods.

GOVERNOR CUMMINGS, of Iowa, is looked upon as one of the coming men of the west. If he thinks as vigorously on other questions as his inaugural message shows he thinks on trusts, it is to be hoped that he will soon arrive. He holds that every corporation should be required to have its capital stock paid for at par in money, before it is authorized to transact business. "I believe," he says, "that the question is a national one and that the time has come to nationalize it. I recognize the difficulty of amending the constitution of the United States, but I know that whenever the people are sufficiently in earnest it can and will be done."

A MAGAZINE, owned edited and published by lunatics is soon to make its appearance somewhere in Illinois. It seems hardly necessary. Some of the existing magazine and newspaper publications might be made to serve the purpose of the promoters. No reference to any Nevada publication.

ANOTHER consumption cure. This time it is reported from Paris and made from certain plants found in Chili and Colombia. It is proving very successful. They all do at first, but not one of them has continued successful.

THE House of Representatives has solemnly decided that the United States "is" not "are." The House of Representatives is behind the times. The Journal decided that question nearly six months ago.

KING EDWARD'S statement that the Boer war may be considered as approaching its end is a pleasing prophecy, but if he means that the Boers are nearly conquered there is room for doubt.

ALL AROUND THE STATE

A Few Gleaned Paragraphs of Nevada News.

Israel L. Brooks, an old resident of Carson, died on the Ormsby poor farm last Sunday, aged 75 years.

The bidders on the contract for carrying the mail between Elko and Tuscarora are asked to try again. Uncle Sam says they ask too much.

J. J. Shaughnessy, the man who killed Letta Winston at Golconda, has been bound over to appear before the Humboldt county Grand Jury.

DeLamar is the possessor of a mule with a thirteenth rib. DeLamar is a mining camp, and is as sporty as most places of a like character in the country. Just now it thinks it goes them one better, because it has a mule. It is perfectly natural for many bipeds to spend their money for whiskey, yet this special mule, by a show of "cussedness" out of the ordinary even for his tribe compels his master to buy the grog for him.

Railroad Changes Causes Uneasiness.

The extended improvements in progress and in contemplation along the line of the Central Pacific is causing some uneasiness in the different towns along the road for fear that they may one of these days find themselves out in the woods, so to speak, says the Truckee Republican. It looks as if Wadsworth will soon be out in the cold, while if the proposed tunnel through the Sierras is constructed and the contemplated changes made, there will be a whole line of towns between here and Rocklin that may be wondering where they are at. In case, however, such a change is made doubtless most of the present line would be kept up for local business.

A FIREMAN'S CLOSE CALL.

"I stuck to my engine, although every joint ached and every nerve was racked with pain," writes C. W. Bellamy, a locomotive fireman, of Burlington, Iowa. "I was weak and pale, without any appetite and all run down. As I was about to give up, I got a bottle of Electric Bitters and, after taking it, I felt as well as I ever did in my life." Weak, sickly, run down people always gain new life, strength and vigor from their use. Try them. Satisfaction guaranteed by S. J. Hodgkinson. Price 50 cents.

MINING IN THIS STATE

Culled News of Nevada's Most Important Industry.

Yesterday the drill on the Brunswick lode had attained a depth of 120 feet. There is great excitement in Yellow Pine district, Lincoln county, over a discovery of cinnabar ore.

The Salt Lake & Tonopah Mining Company has just made the final payment of \$21,000 on the mining property which they recently purchased at Tonopah. With the final payment the company acquires the deeds to the Stone Cabin and Wandering Boy locations.

The Lyon County Times, of Yerington, says: "Although this section has three copper smelters, neither of them is in the right locality nor of the right construction to do custom work, and a smelter of this nature is what is needed. There are some very promising copper ledges in this district, but they are owned by men who are not able to develop them.

Fred Ritter has in contemplation the building of a cyanide plant on the Comstock. He made a statement to this effect last night. While the weather is too rough at present to begin an enterprise of this sort, it is his intention to go to work to cyanide and concentrate his tailings when it becomes more moderate. He expects to install a plant of no less than 100 tons capacity.—Chronicle.

Bradshaw & Barnes,
JOURNAL BLDG., SECOND ST.

Mining Location Blanks At the... JOURNAL OFFICE

Willful Distortion of Uncle Sam's Lingo.

The editor of the Gazette was yesterday afflicted with another gall stone. Instead of its escaping as did the former—vide the Gazette of two evenings ago—it evidently found its way to the cranial cavity of the said editor and the vagrant substitution for gall matter evolved a fearful and wonderful conception.

The co-operation of a local physician, who evidently had not read the item in The Journal, was secured by means of an interview. The interviewer doubtless misstated facts. At least The Journal hopes that the physician did not willingly lend himself to the purposes of the proprietor of the gall stones. In fact he bears too excellent a reputation as a physician, gentleman and judge of good English to have done so. Only the proud possessor of a gall stone in his cranium could be guilty of such a ridiculous break.

Nothing but the humor of the situation impels The Journal to give the matter this publicity. Here are the two articles:

From The Journal:

The embalmed body of Bill Scott, the negro who shot Constable Leeper and met death in the operation, is still wandering around in search of a grave in which it can find rest. Scott's paragon, Belle, is in Truckee and has the undertaker's corpse with her. At last accounts it was at McDougall's mortuary.

From the Gazette:

Noticing in the morning Journal that Bill Scott had the remains of her husband, killed by Officer Leeper here, in Truckee, and that Scott died under the operation, a "Gazette" reporter took the opportunity to interview County Physician Gibson.

The first question asked was, "Doctor, did you kill Scott?"

"No sir, I did not."

"Did the operation you performed hasten Scott's death in any way?"

"No, but on the contrary it prolonged it."

"What was the cause of his death?"

"The immediate cause was hemorrhage, but I don't think it would have been assigned to that cause if some of the 'penny-a-line' newspaper reporters in Reno had succeeded in that which they attempted—getting a mob to hang him—but the people had more sense than the reporter in question, and did not take his advice so Scott died as I said before, of hemorrhage caused by a gunshot wound in the liver."

Ninety-nine persons out of a hundred who read the clipping from The Journal will understand that Scott was killed while in the operation or act of shooting Constable Leeper. It is a safe bet that the hundredth man is a gall stone. Of course, if the item had read that Scott died "while under an operation" the meaning would have been different.

The writer suggests that hereafter when the Gazette editor finds something in his head, instead of interviewing a physician he have the medical gentleman trephine him and remove the gall stone.

A Ragtime Expert

George J. Hayes of San Francisco arrived in Reno yesterday. Mr. Hayes is known as the prince of ragtime pianists and has been pronounced by musical critics as a wonder. His home is in New York, although he has spent some time on the coast. During his stay in Reno, which may be protracted, Mr. Hayes will be the guest of Sig, the proprietor of the New Tivoli, where the local music-lovers may have an opportunity to enjoy his artistic work.

Make a Clean Sweep

Property owners along Commercial row will nearly all have cement sidewalks laid this spring. If the disfiguring awnings were removed at the same time the appearance of the street would be still more improved.

CO-OP STORE ORGANIZER.

M. V. Bork, coast organizer of co-öperative stores—a good speaker—will be present and address the members' meeting Saturday, Feb. 1st, at 1 p. m., at Salvation Army hall. Every member should attend as he will explain all about it. J3111

The Ice Man Smiles

This has been an ideal season for the ice man. All the local houses are full of thick ice of unusual clearness. Up the river an enormous supply was gathered. Two crops were cut from nearly all the ponds.

WOMEN AND JEWELS.

Jewels, candy, flowers, man—that is the order of a woman's preferences. Jewels form a magnet of mighty power to the average woman. Even that greatest of all jewels, health, is often valued in the strenuous efforts to make or save the money to purchase them. If a woman will risk her health to get a coveted gem, then let her fortify herself against the insidious consequences of coughs, colds and bronchial affections by the regular use of Dr. Boschee's German Syrup. It will promptly arrest consumption in its early stages and heal the affected lungs and bronchial tubes and drive the dread disease from the system. It is not a cure-all, but it is certain cure for coughs, colds and all bronchial troubles. You can get Dr. G. G. Green's reliable remedies at Hodgkinson's drug store. Get Green's Special Almanac.

The Price of Stock Has Been Advanced.

Editor Journal—Please discontinue the ad relating to the sale of shares in the Consolidated Nevada Mining Company at five cents per share, as we shall not dispose of any stock for less than seven and one-half cents after February 5th. The improved physical condition of our properties warrant the advanced price, which may also be further advanced as improvements are evidenced.

We desire to call attention to the fact that the shares of our company are absolutely non-assessable, created so by the State laws of Wyoming under which the company is incorporated. Subscribers to the stock can procure the same through Bradshaw & Barnes.

BRAIN-FOOD NONSENSE.

Another ridiculous food fad has been branded by the most competent authorities. They have dispelled the silly notion that one kind of food is needed for brain, another for muscles, and still another for bones. A correct diet will not only nourish a particular part of the body, but it will sustain every other part. Yet, however good your food may be, its nutriment is destroyed by indigestion or dyspepsia. You must prepare for their appearance or prevent their coming by taking regular doses of Green's August Flower, the favorite medicine of the healthy millions. A few doses aids digestion, stimulates the liver to healthy action, purifies the blood, and makes you feel buoyant and vigorous. You can get Dr. G. G. Green's reliable remedies at Hodgkinson's drug store.
